Capt. *Konstantin Parastatidis* also had the best landing rates with only -1fpm.

## Congratulation to our best pilots !!!

## General news from our VA

### • **New Website Features:**

In the previous months we did some changes to further improve our service for you.

The changes were:

- Cloud pilots center-> Flight Operations -> "Already created Charter Numbers":  
Here you can see all created charters from all our pilots and maybe find a nice flight for you outside our standard schedule
- Cloud Pilots center-> Flight Operations -> "Assigned Flights":  
Whenever you want to be dispatched by our system you find this feature in Cloud Pilot Center/Flight Operations/Assigned Flights. You can adjust your personal settings e.g. Flighttime, Aircraft Type, Airline etc. also.

- **HUBs**

Just a short reminder, hubs are only for our administration

You can fly any flight out of our Schedule

If you don't like you even must not visit your Hub

Your Hub manager is responsible for all your questions and belongings.

---

- **F1 Tour:**

- For each race an own flight to the race destination is scheduled
  - On the Day the race takes place the flight is disabled and the next one is opened.
  - To receive an award 5 Legs must be flown (not in sequence required)
  - Awards for 10, 15 and 20 completed flights will be available
- 

- **Academy**

Our Academy Team creates every Month a nice schedule of Trainings to be held.

You can find it in our Cloud Pilot Centre -> Community -> Academy -> Trainings

There also your signup for training should be made

---

- **Summer Schedule 2017**

Our Timetable is fully updated.
